PROFILE SUMMARY

GoLang enthusiast with solid understanding of backend development, REST APIs, and concurrency. Built real-world backend systems during projects using Go, MySQL, and Golang. Passionate about writing clean, efficient code and solving complex backend problems.

EDUCATION

2023 - 2025
DY PATIL UNIVERSITY, TALSANDE

- Master of Computer Application

2020 - 2023
SHIVAJI UNIVERSITY

- Bachelor of Computer Application
- CGPA: 9.07 / 10

2019 - 2020
NEW MODEL JR. COLLEGE

- Higher Secondary Education
- Percentage: 60.67

2017 - 2018
RASHTRASEVA PRASHALA

- Secondary Education
- Percentage: 83.80

WORK EXPERIENCE

Code Crafter Services

2024 - 2025

Java Developer Intern

- Developed RESTful APIs using Spring Boot to enhance business functionalities.
- Implemented CRUD operations and optimized database queries to improve application performance.
- Debugged real-time issues such as API request failures, database connection errors, and memory leaks, ensuring smooth application flow.
- Integrated third-party APIs and authentication mechanisms like JWT for secure data exchange.
- Participated in Agile development cycles, daily standups, and sprint planning.

REAL-TIME TROUBLESHOOTING & USE CASES

- Issue: API Response Delay - Debugged and optimized SQL queries to reduce response time by 30%.
- Issue: Authentication Failures - Implemented proper exception handling for security mechanisms.

SKILLS

- Programming Languages: Golang, Java, Java8
- Frameworks & Technologies: Spring, Spring Boot, Spring MVC, RESTful APIs, Gorilla/Mux
- Databases: MySQL, MongoDB
- Tools & Platforms: Git, Maven, Postman, Go modules
- Concepts: Object-Oriented Programming (OOP), Debugging & Troubleshooting

PROJECTS

- DailyTaskAnalyser - It helps to set daily goals, check them, complete them, delete them, modified them.
- HiTech Billing - Built a billing management system for small businesses using Spring Boot & MySQL. Developed features like invoice generation, customer management. [GitHub: HiTech Billing](#).

CERTIFICATIONS

- Learn How To Code : Google's Go (Golang) Programming Language
